

## Literacy

- ✓ How many words can you make out of 'Easter Holidays'?
- ✓ Can you write a story about the Easter bunny who lost his eggs?
- ✓ Listen to any of the stories below:  
<https://www.worldofdavidwalliams.com/elevenses-catch-up/>

## Science

- ◆ Which animals are born in Spring? Can you list the animals and the names of their young?
- ◆ Go outside on a clear night- Can you find the moon? How many stars can you count?
- ◆ Keep a weather diary for the 2 weeks.

## Health & Wellbeing

- ⇒ Can you make up a dance to your favourite song? Try teaching it to someone in your family.
- ⇒ Write a list of 20 things that make you happy.
- ⇒ Make a certificate for someone in your house- award it to them and tell them why!

## Expressive Arts

- \* Can you decorate a hard boiled egg?
- \* Can you compose your own song about springtime?
- \* Choose a spring flower- look at it closely. Can you make a line drawing of it?

### Home learning activities

## DIGITAL

- ↪ Practise your typing skills at <https://www.doorwayonline.org.uk/typing/>
- ↪ Design an Avatar (on line character) that you would use to represent yourself (this can be a drawing on paper).
- ↪ How many ways can you communicate with others? Make a list of all the ways you can think of.

## Social Studies

- \* Can you find out about the different games children played now and in the past?
- \* Choose a country. Find out the name of the cities, rivers and any landmarks it has.
- \* Can you create a poster to thank all the key workers who help us at this time? How many can you list?

## Numeracy

- Measure how far you can roll an egg. Measure the number of footsteps. If you have a measuring tape, can you measure in metres and centimetres?
- Play with a family member or a friend. Set a timer to 30 seconds. Take it in turns to time each other doing different activities such as star jumps, laps round the garden. Record your results and see who wins in the end!

## Outdoors

- ◆ Go on a Spring walk...how many spring flowers can you find? Keep a tally.
- ◆ How many different types of animals/ birds can you see. How about keeping a tally and making a graph or table with your results?
- ◆ Can you build a den? (this could be done in a garden or indoors)
